

About the Course

The domestic garment manufacturing and branded apparel products are having a good market potential in our country. This can be leveraged by the garment designers to design the customized garment for domestic customers according to individual taste. This programme is very helpful for the **house wife's**, who desire to explore in the new avenues in **fashion designing and boutiques**. It will be more helpful to learners to start up a boutique and surface ornamentation business. The modules are designed in a structured way for hands on training on pattern making, cutting, sewing techniques and fashion designing.
