

COMMUNITY DEVELOPMENT THROUGH POLYTECHNIC

PSG Polytechnic College has been implementing Community Development through Polytechnics Scheme since 2009, for SC/ST/OBC, Women, School dropouts, Minorities, Physically Disabled, Economically Weaker Sections of the society and other under privileged persons.

AIM OF THE TRAINING PROGRAMME

In order that the human resource is developed for gainful employment/self-employment, the training must be need based, and should provide employable/self-employable skills. The purpose of the skill development is to create skilled and knowledge based manpower by empowering them technically so that they can earn their sustainable livelihood. All training programs should be well-designed through graded exercises, keeping in view the market requirements for various trades, short term non-formal, modular courses of 3-6 months duration, depending on the local needs and commensurate with the available local resources with proper structures. Yet having the desired flexibility, to pave the way for self-paced open learning mode (OLM) should be offered. Depending upon local circumstances in some cases multi-skill training may be offered to make self-employment viable in the rural economy. In some of the trades, advance skill course for 3 to 6 months duration may be designed and offered as per the interest of trainees or as per the demands of local companies/industries/market. Preference may be given to the training courses with technical basis.

OBJECTIVE OF THE SCHEME

To carry out need assessment surveys to assess the technology and training needs

To impart skill development training to the intended target groups

To disseminate appropriate technologies for productivity enhancement

To provide technical and support services to rural masses and slums dwellers

To create awareness among the target groups about technological advancement and contemporary issues of importance.

In Community Development through Polytechnics, we conduct the following free training Programmes during 2019-2020

ACTIVITY

SOCIO ECONOMIC SURVEY

In order to ascertain the needs of the trainees for imparting training in the required trade a detailed socio-economic survey was conducted in Somayanur. Totally 100 families were personally contacted and a detailed questionnaire response was elicited. In order to make the survey a full proof one, the services of the National Service Scheme volunteers of our institution and the staff of the Scheme of Community Development through Polytechnics were utilized.

From the findings of the survey, it was found that there is an overwhelming demand from women folk for training programmes in Cutting, Tailoring and Embroidery, English Typing, Computer Data Entry Operator, Beautician, Computer Based Accounting (Tally) among men there is a demand for the courses on Computer Data Entry Operator, English Typing, Computer Maintenance. The above courses are being implemented at present.

Few people opted for courses like Candle, Soap Powder & Phenol making, and gift Making courses are being implemented at present.
