Best Practices

In the present education system it is highly challenging to impart good and quality education accordingly. There is a needed intended pattern and collective practice in enhancing educational policies. Owing to the growth and advancement of technologies and prerequisites of the job market, it is inevitable to set up novel practices which have to constitute in fulfilling the students' future demands. Recognizing the need of the hour and becoming an excellent academia, PSG Polytechnic College initiates holistic approaches in teaching and learning process. In tune to excelling ideal thoughts in the young minds, our institution lays down forty three best and innovative practices with the cooperation of the dynamic faculty members, each of the practice is constructed with individual objectives and goals which certainly show multivalent platforms to the student community in the offing years.

The main purpose of Education is to bring out the creativity, competence, and independence of the students and make them incorporate constantly changing conditions of life. The Vision of PSG Polytechnic College is to provide value based education. The Institute works towards enhancing the individuals with appropriate attitude, capability and temperament to serve the needs of the society. We strive to achieve this by implementing "Best Practices" that will have a meaningful impact on students.
