INDUSTRY INTERACTION AND IN PLANT TRAINING PSG INDUSTRIAL INSTITUTE (PSGII)

PSGII, situated in the PSG Polytechnic College campus, offers a unique opportunity to Polytechnic students, not only for broadening their perspective, but also for an in- depth view and feel of technological, supervisory, entrepreneurial, Industrial-finance, manufacturing, testing, quality, administrative, group discussions and placement- oriented skills involved in the functioning of an organization/industry.

IN – PLANT TRAINING FOR REGULAR AND SANDWICH STUDENTS

Students are provided with industrial training programmes in the major divisions of PSG Industrial Institute, viz., Rotating Machinery Division, Electrical Assembly and Neelambur Foundry Division , each of which is a self-contained unit. Other facilities in the Institute include a full fledged CNC division consisting of turning centers, Machining centers, Laser cutting, TIFAC-CORE (Rapid Prototyping), Basic Sciences and Metrology divisions. A full-fledged Training department works with the dedicated Faculty of the respective Departments, and coordinates the entire Industrial training programme.

SANDWICH IN-PLANT TRAINING EXCLUSIVELY COVERED FOR

1. Four year Diploma in Electrical and Electronics Engineering
2. Four year Diploma in Mechanical Engineering

INDUSTRIAL VISITS

Visits to a wide range of industries and technical exhibitions are regularly arranged to keep the students abreast of the conditions prevailing in their field of study. Thus the students, undergoing the co-curricular training programmes, get multi-faceted exposure to various practices across different engineering disciplines.

KAIZEN APPROACH IN TRAINING EFFECTIVENESS

As part of continuous improvements in Training effectiveness, additional training related infrastructure like exclusive study centers for mechanical, electrical & electronics appliances, maintenance & re-conditioning cells, hands-on experience cells in each division are set up. Supervisory Skill Development Programmes (SSDP) are also conducted prior to their placement, which enhances their market-readiness, and multiplies their opportunities.

TRAINING METHODOLOGY - BLOOM'S TAXONOMY

The entire Training Curriculum is modeled on the Bloom's Taxonomy Methodology, imparting the right mix of cognitive, affective and psychomotor skills to the students. This provides students the right blend of skills required to make them Industry-ready, and puts them on the Placement fast-track.
