Visionary CEO with 15 years leading a successful manufacturing company. Expertise in market expansion, operational strategy, and cost optimization. Seeking to apply strategic insight and manufacturing depth to drive growth in a forward-thinking organization.

EXPERIENCE

CEO & Managing Director

Harsha Flow Technologies Private Limited, Coimbatore, TN.

2010 – Present

- Leading the strategic and operational direction of **Harsha Flow Technologies Pvt. Ltd.**, a reputed manufacturer and global exporter of high-precision **valve components** for leading multinational companies across **Europe** and **the UAE**, establishing the company as a reliable global supplier in the oil & gas, power, and petrochemical sectors.
- In addition to CEO responsibilities, also functioning as **CFO** for **Harsha CNC**, managing cross-company financial strategy and performance.
- Played a key role in executing multiple high-precision fabrication projects for the **Indian Space Research Organisation (ISRO)** since 2015, consistently meeting stringent aerospace quality and specification standards.
- Directed cross-functional teams across manufacturing and quality assurance to drive consistent output and on-time delivery.
- Played a key role in fulfilling complex, high-precision job requirements for leading clients like **L&T, LMW and ROOTS** strengthening long-term partnerships.
- Oversaw the implementation of advanced manufacturing technologies (CNC, CAD/CAM) to improve product performance, reduce lead times, and enhance global competitiveness.
- Drove efficiency and export growth through continuous improvements and lean manufacturing.
- Maintained a strong focus on innovation, technical excellence, and customer satisfaction, significantly enhancing the company's brand value and recognition in international markets.
