## Ceremony of Award of Diploma

8<sup>th</sup> June 2024

## About the Chief Guest

Mr. Satish Rajkumar is an esteemed leader in digitalization and sustainability, currently holding the position of Head of Digitalization (Battery Optimization, Monitoring) & IT at Volvo Energy. He is a prominent figure at Volvo, who served as the Senior Vice President of Process & IT for the Asia-Pacific region. With over two decades of experience in IT, he oversaw Volvo Group's Trucks Sales & Marketing and joint ventures. He has held several key roles at Volvo IT, including CIO of Volvo Group in India and Asia Pacific Director of Global Account & Customer Relationship Management. Before joining Volvo, Mr. Satish Rajkumar worked at UD Trucks Japan, as a Senior Vice President of Digital Solutions and IT. Earlier he served in Ashok Leyland in various capacities, such as in the Enterprise IT Solution Group and Material Planning & Production Control.

In his current role, Mr. Satish Rajkumar oversees digital solutions and IT, focusing on battery optimization and Volvo Energy monitoring. His efforts are particularly geared towards enhancing the role of digitalization in driving sustainability and de-carbonization. He has been instrumental in setting up key infrastructures, such as Volvo IT's global command center in Bangalore, which consolidates IT services and enhances the efficiency of monitoring systems globally.

His career is marked by a strong emphasis on leveraging technology to improve operational efficiency and sustainability in the automotive industry.

Mr. Satish Rajkumar holds a Bachelor of Engineering degree in Mechanical Engineering from the College of Engineering, Anna University Guindy, and an MBA in IT and Finance from Madras University. With a robust skill set that includes change management, Process Improvement, Leadership, Development, and selling skills he contributed valuable insights to the industry.
